'Travel and Tourism'

8

Projects in the junior category

2

Projects for
'An ideal day at School'

Student Stats

50

Total number of registrations

25

Total shortlisted projects

16

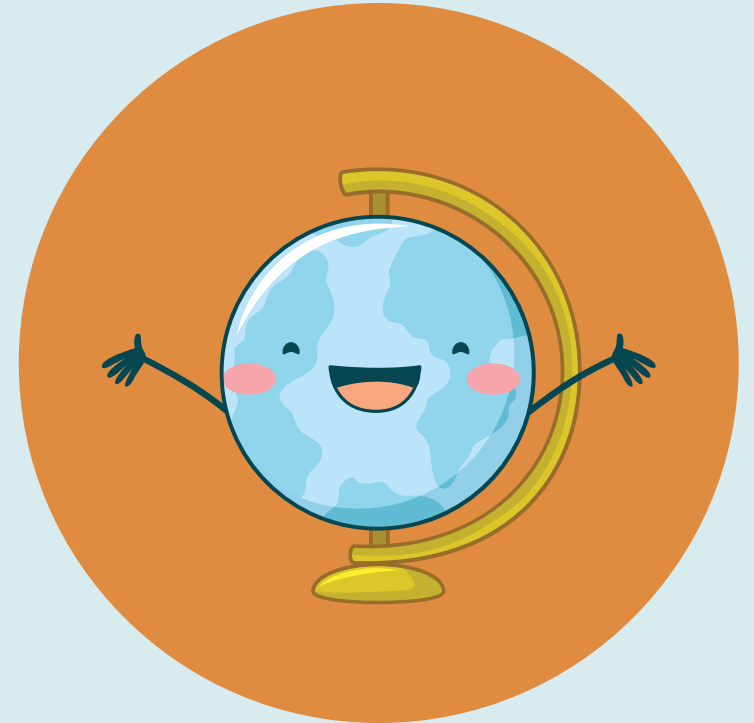

Number of cities

9

Number of countries

11

Number of different time-zones in which students live

Scratch Project Stats

245

Total number of backdrops used in the projects

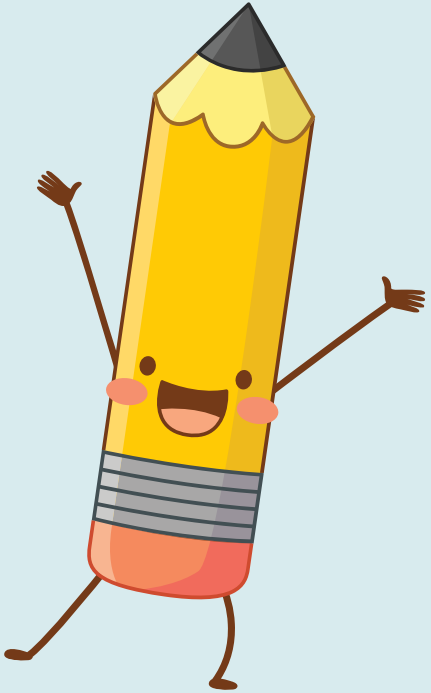

475

Total number of sprites

17,200

Total Number of Scratch Blocks used

Collateral Stats

102

Minutes of student project showcase

2,455

Total number of views

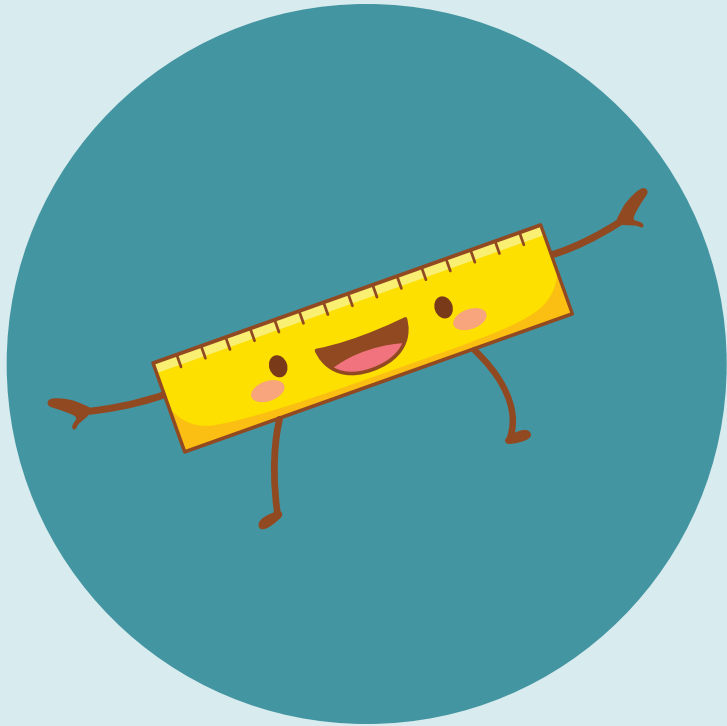

80

Total Number of hours in viewing this!

61

Total Number of slides in the PPTs submitted

Time Spent Stats

10

Hours of combined consultation sessions

10

Hours of combined interviews sessions

20

Estimated Total Number of hours spent by the judges

350

Estimated number of hours spent on making the projects

Estimated number of hours spent by the organizers!

In short ...

*Let's be proud of what we have done
and achieved together!*

Results

Process we followed

All along, we wanted to make sure that all stakeholders – students, judges and organizers – enjoy the process and gain from it.

Fastest Finger First

The very first student to register:

Ishani Singh, within 2 Hours of announcement!

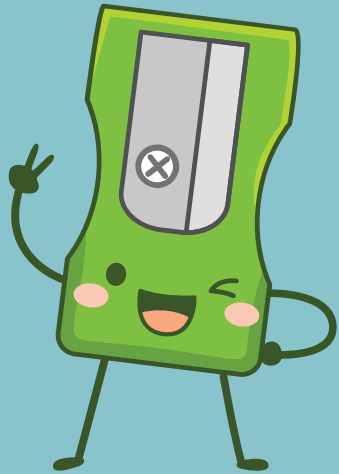

The very first project to be submitted

Bhavnish Sai J, 23 Feb 2021

Social Media Star

The most watched video, both in terms of number of views and viewing hours:

Rakha Sapta Fabian (463 views, 41 Hr of view time as on 25th March 2021).

Young Champs

Darren Seah

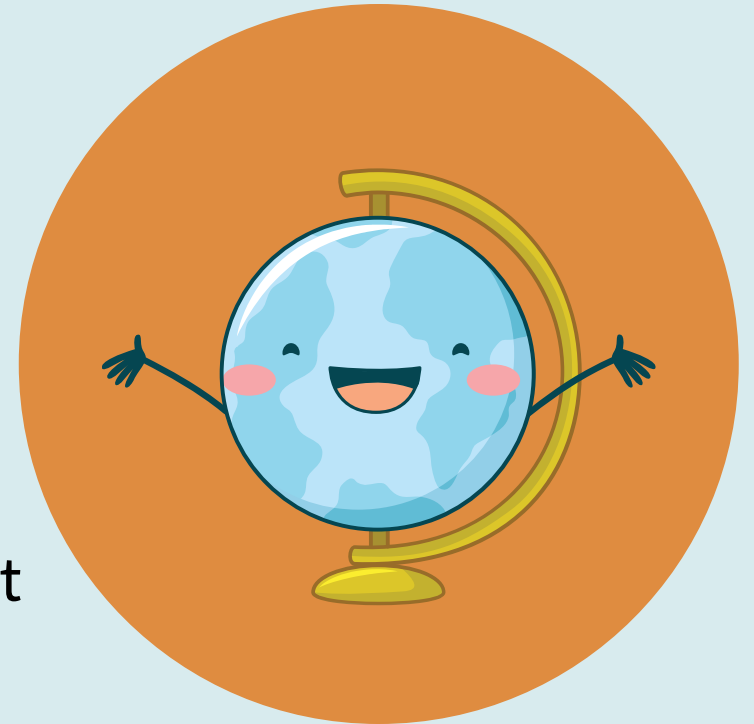

The youngest warrior

Sanat Tibrewal

Another enthusiastic young space adventurer

Vihaan Agarwal

For the longest time, Vihaan was the **ONLY** student attempting the theme 'An ideal day at school'.

Special Mention (Graphics and Sounds)

Rakha Sapta Fabian

Realistic characters, Stunning backgrounds
Audio editing to get the right effects!

Prabhav

Realistic characters, Stunning backgrounds, Very well organized code.

Pritihan

Beautifully implemented 'camera' feature for the futuristic domes.

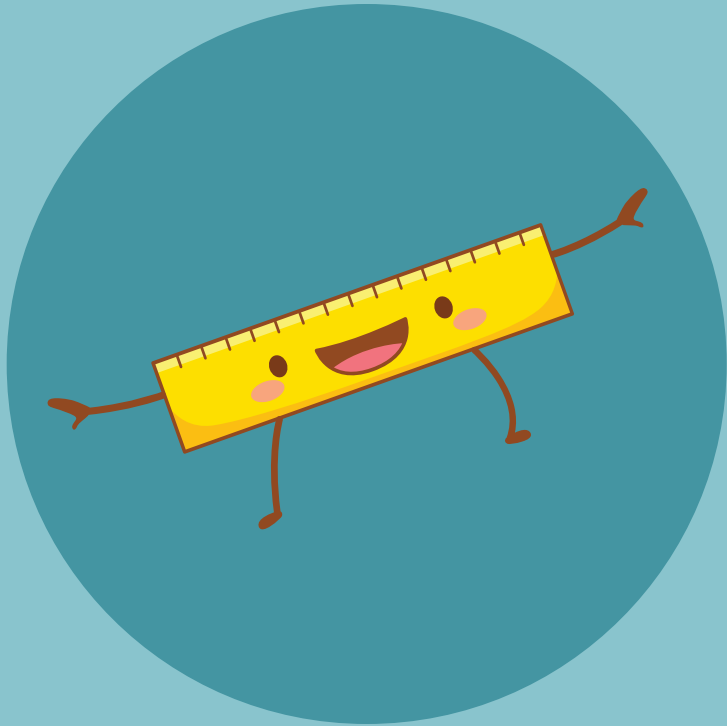

Aarushi Shinija Elengical

Very tasteful futuristic platformer

Neelansh

A fast-paced blast of sound and stunning graphic effects.

Special Mention (Unique Concepts)

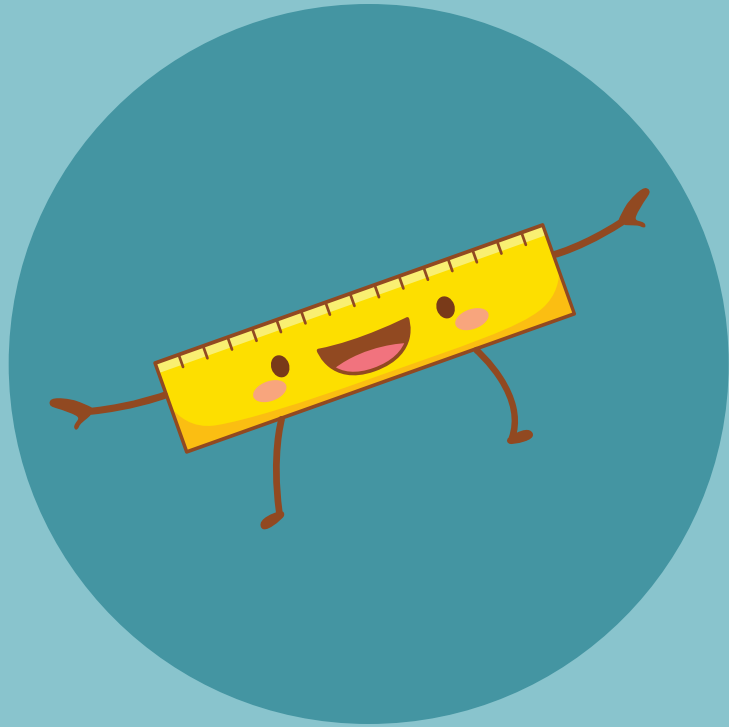

Vaishnavi

Her project took us on a tour of temples in South India.

Soumya

She built a search engine with a fairly advanced text rendering capability and a wealth of information on many Asian countries.

Special Mention (Unique Games)

Monish, Lavanya

Very interesting games interspersed into the project!

Projects that took us places

Shreyas, Karan

Adventurous trips to Paris

Bhavnish

A trip to Manhattan

Yaalini

An informative trip to Rome. Also, amazing synchronization between text and voice

Ananya

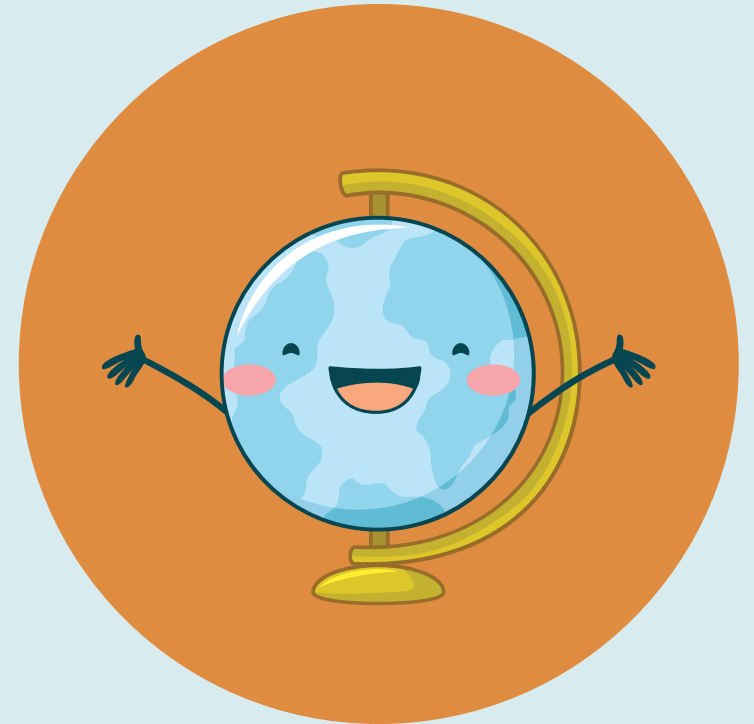

A trip to Goa. Also the preparation before the trip!

Ishani

Informative fun filled trips to Egypt and Italy

Abhinav

A tour to 5 different places

Projects (Space adventures)

Sai

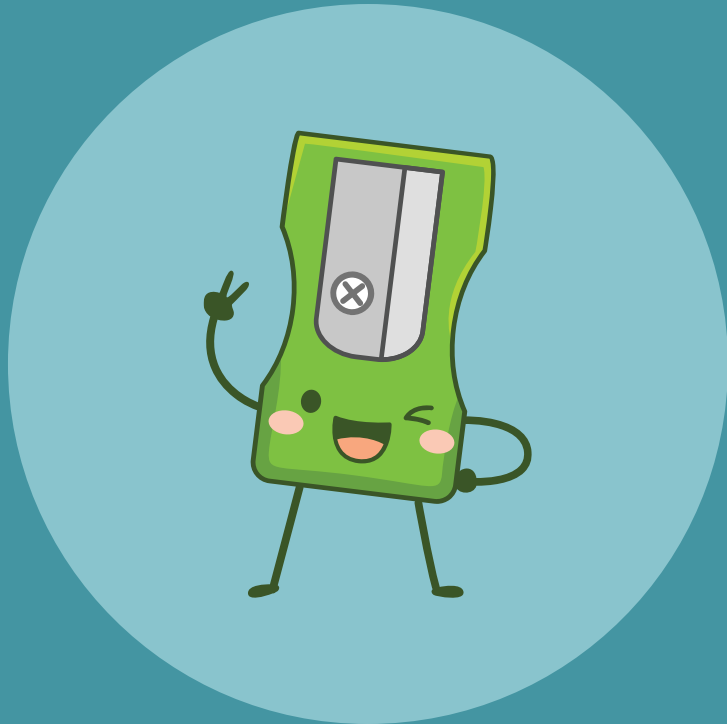

An engaging fight with alien ships

Aarush

A multi-level platformer leading to an asteroid attack

Projects with a thought-provoking message

Viha

An optimistic outlook of the future world
Beautifully implemented time travel portal

Tanya

A mix of possibilities highlighting that future
will pan out depending on how we act now!

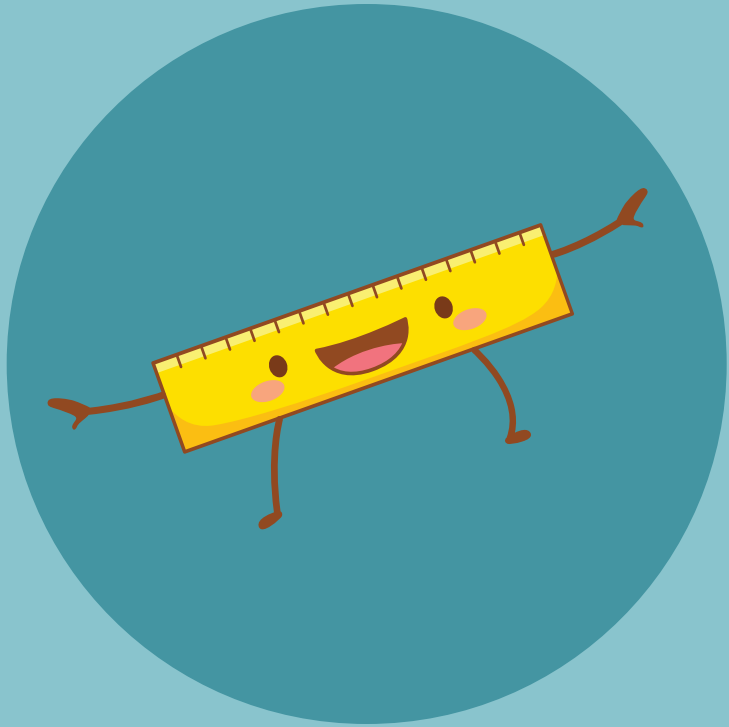

Shreshth

A subtle but deep message highlighting the
importance of water to our very existence!

Gaurav

Interesting possibilities and predictions about
the future.

In short ...

***Every project has something unique to offer
and learn from!***

And finally, the prize winners!

3rd prize

Junior Category

KARAN NALAGANDLA

Sean the Panda goes to Paris

I enjoyed playing your game, Karan. Thank you for taking us to various places. I also enjoyed your captions; they showed a lot of creativity and humor as well - both great ways to engage your audience.

INR 1000/- each

Senior Category

GAURAV BONDAPATLI

3 parallel games related to 2121

The 3 options are interesting concepts, makes me want to explore all of them just by looking at the first screen. Its a great alternative way of introducing variety instead of a linear storyline.

2nd Prize

Junior Category

ISHANI SINGH

Trips to Egypt and Italy

Good way of travelling around the world with games and quizzes.

Senior Category

PRITHIHAN

Teleportation

A well balanced program that incorporates an adventure quest and exploration of the new world. The ideas of the world in 2121 are intriguing. :)

TANYA

Three Possibilities for 2121.

An interesting quest that sends a meaningful message. The games and content are well distributed and games get more difficult as I travel further.

**INR
3000/-
each**

1st Prize

Junior Category

LAVANYA JALAN

An ideal School

A very complete storyline with games and rewards all related to the theme. The games are varied and fun to play, Great job!

Senior Category

RAKHA SAPTA FABIAN

The adventure of Xboy

A very complex and well thought out game! Great job, Rakha! Really liked how you thought through the storyline and made it relevant to the chosen theme.

PRABHAV NICHANAMETLA

Invasion Of The Blocky Zombies

Very creative in terms of game development. Game is exciting to play. Code organization is clean. Impressive effort in creating so many alien sprites, weapons, etc.

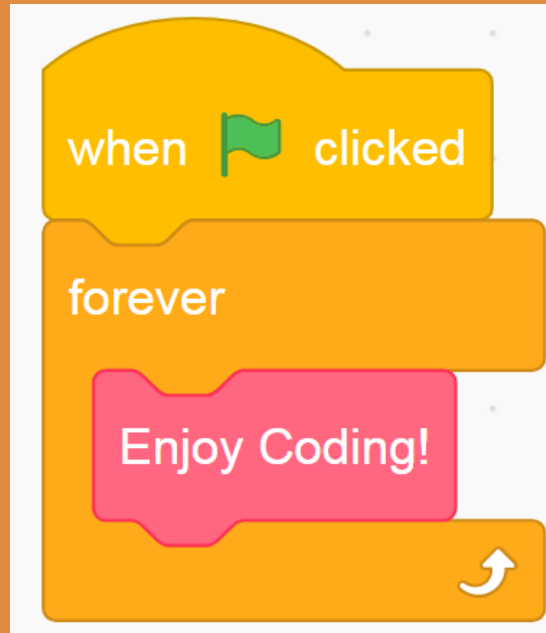

**INR
5000/-
each**

Congratulations

Let's recall where we started

New batches starting from 10th April 2021
